

IS IT A SEED?

Scavenger Hunt

When we live in the same place for a long time it can be easy to stop noticing what is around us, but taking the time to look around can be really good for you. Step outside, into your garden, a local park or somewhere else and discover more about where you live!

Is it loud or quiet?

(Fill in the scale, the louder it is the more you need to colour in!)

What can you hear?

What colours can you see?

(Write their names or use colouring pencils to show them all here)

What colour can you see the most of?

What is the smallest thing you can see?

What is the *biggest* thing you can see?

Can you see any plants?

(Draw them here)

Can you see any trees?

(Draw them here)

Can you find a rough surface? What is it?

(Take a rubbing if you can or write your answer here)

Is there anything else that you can see hear, smell or touch that you like?
What is it?

If you enjoyed taking a closer look at nature and the outdoors, why not print this sheet out again and explore another local area?
